On The Links

Although we had a bit of snow this morning the golf course is progressing nicely with much of our snow melting last weekend. There are still some areas with snow but without much frost in the ground things could progress quickly.

So when is opening day? A bit to early to say but we are hoping for a warm dry snow free spring.

In The Golf Shop

New merchandise is rolling in and the shop is open weekdays from 9 to 4 with longer hours coming as soon as the weather changes. Stop on in to look around, catch up on the latest news and shop.

Memberships, punch cards and WSGA Handicaps can be purchased now in person or at our [online store](#) from the comfort of home.

Titleist is having their loyalty program with ProV1, ProV1x and AVX personalized balls with a buy 3 dozen get one dozen free. Order inperson, by phone or [by email](#).

New lower prices on the Titleist T1, T2 and T3 drivers allow you to improve your game but they will move fast at only \$399.

Last year model Taylor Made drivers and utilities are also priced to move.

Kleinke's Scorecard

Jeff and his family have the Bar and Grill nearly ready to go with a new look featuring new ceiling, lights, floor and seating. The last health and building inspections were passed on Monday so we are just waiting for some golf weather.

The bar and grill is not just for after golf but you can stop out for a random lunch or talk to Jeff about hosting your next event or party.

On the Range

Spring is a great time to sign up for a lesson package with Don DuChateau to play your best golf in 2020. With Don as your teacher if the weather does not allow for outside practice he can teach inside over at Donny Du's as well.

JOBS

Some of our staff from last year found internships or full time positions in their field of study so we are looking for few more employees to join our team.

You may have a child, grandchild or great grandchild looking for a job for the golf season. If they can work evenings or weekends in the spring and fall all the better. Or you or someone you know may be looking for a retirement job to earn some cash and pass the time.

Work on the golf course can be fun and rewarding but one caution; golf is a 7 day a week business and all our employees work some weekends.

The work is fun, the sun is free and applications can be filled out at the [FDL County Website](#) by clicking on seasonal positions.

Leagues

If you are looking to join a league or if you are a league officer wanting to set up a league meeting please contact us in person, by phone or by [email](#).

Upcoming Events
